

ITPedia

a slightly semantic wiki

What is ITPedia

- ✱ ITPedia is a public website focused on documenting projects by the people that make them without explicit permission by the community it represents.

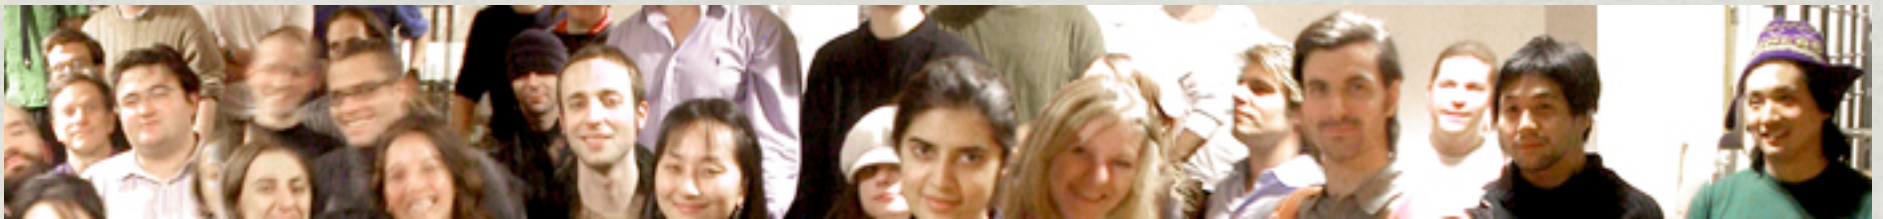

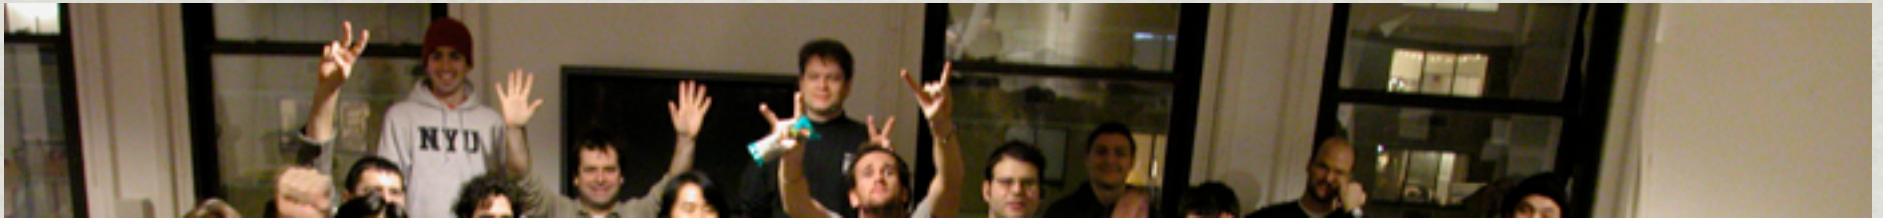

Design Challenge

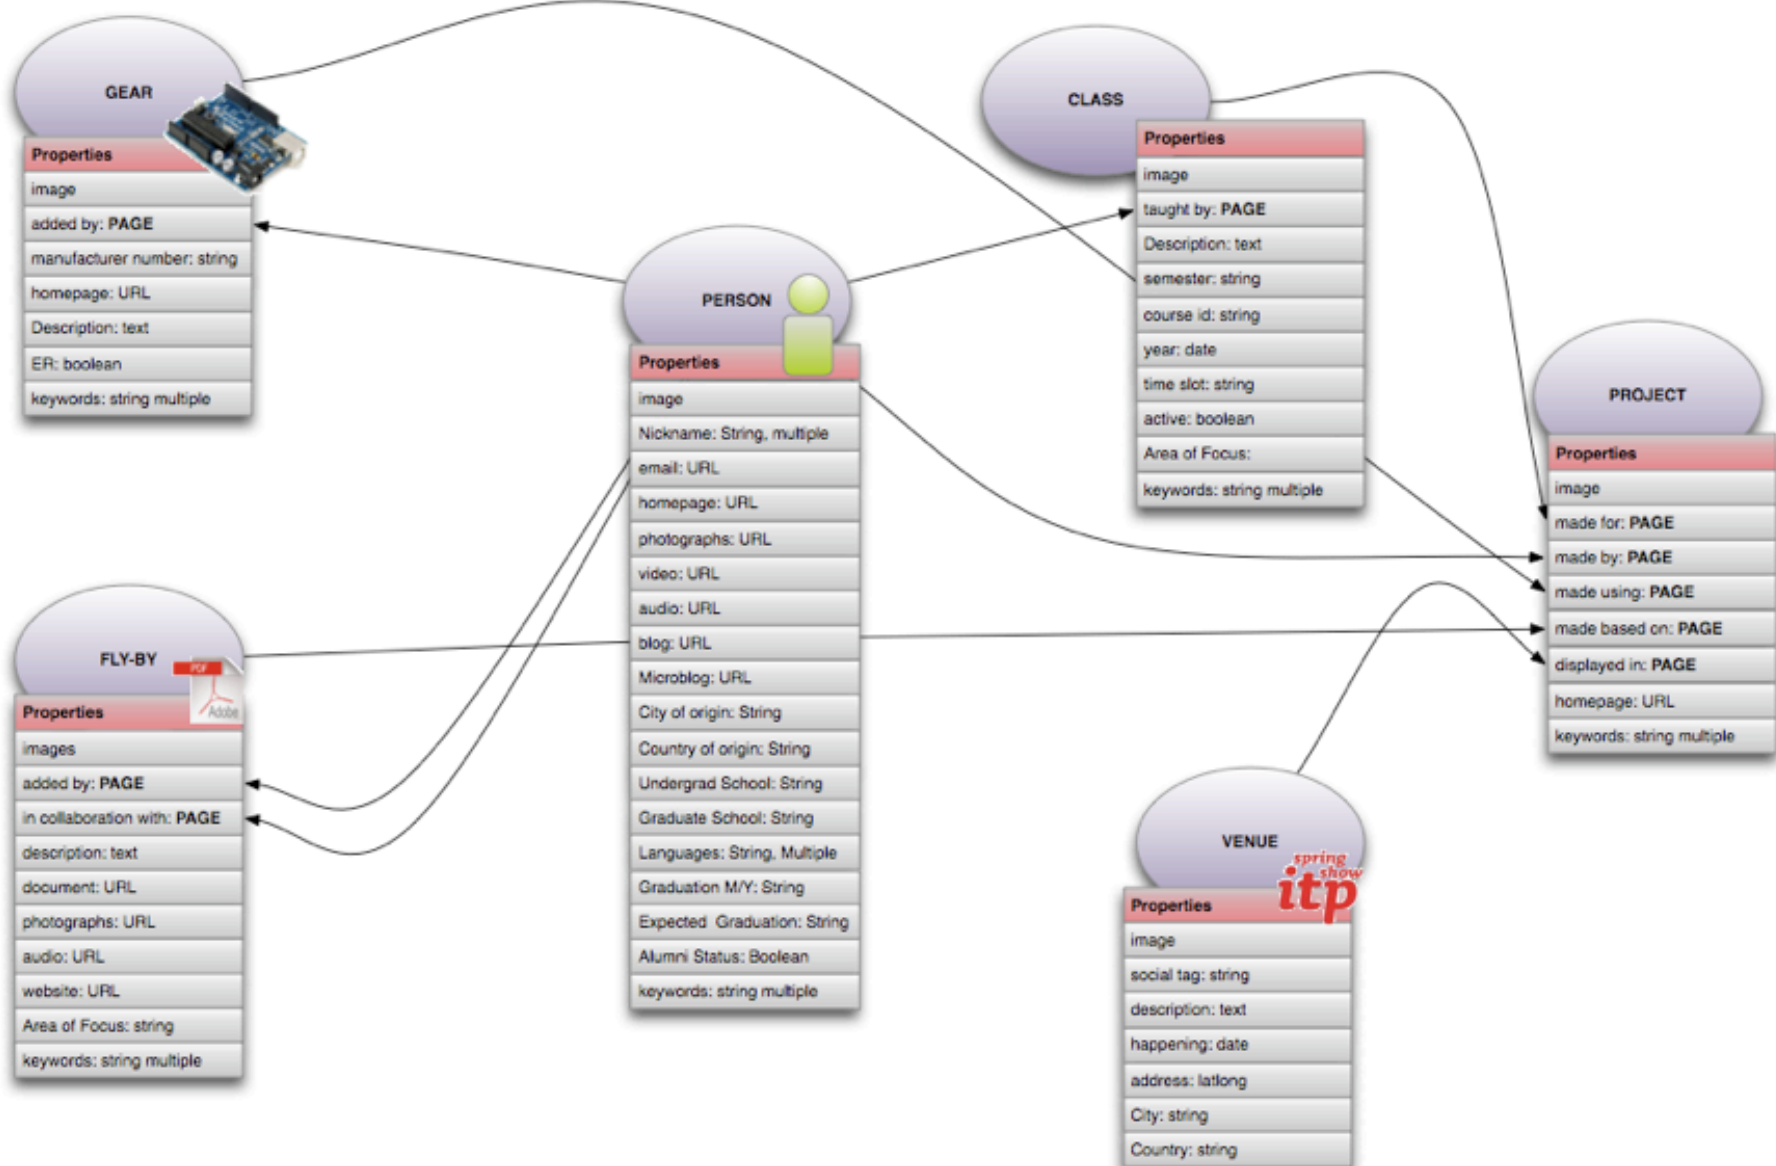

✱ **HOW DO YOU PERSUADE
PEOPLE TO USE THE WIKI**

Knowledge Management vs. Wikis

- * structured taxonomies vs. free-form collaboration
- * linear workflow process vs. chaotic patterns
- * someone in charge vs. everyone in charge

We are making this for ourselves.

GeoGeni.us

Image

Made by [John Dimatos](#), [Corey Menscher](#)

Made for (ITP class) [Designing Around Place](#)

Description

GeoGeni.us is an ongoing scavenger hunt for the ITP class. In Order to be a Geogenius, you have to be able to:

1. Decipher cryptic text and pictures about a location
2. Challenge pretenders to your Genius through a game

Using the Open Source PhoneGap Project, we developed this game for the iPhone.

Made using (gear) iPhone

Made informed by (fly-by) [Designing Around Place](#)

Displayed at [ITP Fall Show 08](#)

Homepage <http://geogeni.us> [↗](#)

Keywords location, iphone, GPS, game

What questions does it answer?

- * *What projects did Chris Cerrito do in 2008?*
- * **<#ask category:Person name::Chris Cerrito Date::2008>**
- * *What gear is relevant to Networked Objects?*
- * **<#ask category:Fly-By class:Networked Objects>**

Users and behaviors

- * First years: familiarity
- * Second years: legacy
- * Faculty: accessibility
- * Staff: reduction

Automatic for the People

- * automated weekly emails to the list
 - * active users
 - * new pages
 - * updated pages
 - * new forms
- * Automated email for changes to collaborative docs
